Subject: 9 Canal Road - St.Peters

Philip,

Just to let you know that we recently received correspondence from NSW Fire Brigades relating to "notice of intention to inspect". The purpose being to check if the recently supplied Form 15A was in order and that the contractor and certifying company actually did what was said to be complete.

This was carried out last week and I spoke to the officer today and they were stunned that all works were a ok. The comment came back "we couldn't even find an exit light out anywhere".

Their report will be issued to Marrickville Council and we'll receive a copy shortly with no recommendations for works noted.

Good to see CMS excellent work's are being recognised..

Regards,

Terry Rosewarne
